SAJID ABBAS

Software Test Engineer | QA Automation Engineer | Selenium Java | API Testing | Banking & Payments

Hyderabad, India | +91 7208188560 | tech.sajid.abbas@gmail.com

GitHub: github.com/sajid786005 | LinkedIn: linkedin.com/in/sajid-abbas-703998378/

PROFESSIONAL SUMMARY

Software Test Engineer with 3+ years of experience in Manual Testing and Automation Testing using Selenium WebDriver, Java and TestNG. Strong banking and FinTech domain experience in card payment systems (Debit, Credit, Prepaid and Virtual Cards), including OTP, CVV, tokenization and end-to-end payment workflow validation. Hands-on experience in API Testing (Postman, REST Assured), Database Testing (MySQL), CI/CD with Jenkins and Maven, defect tracking in JIRA, and Agile/Scrum delivery. Skilled in test case design, regression and release validation, and building maintainable automation frameworks.

CORE SKILLS

Manual Testing: Functional, Regression, Smoke, Sanity, Integration, UAT, Exploratory, Cross-Browser Testing, Test Case Design and Execution, Defect Life Cycle, SDLC, STLC

Automation Testing: Selenium WebDriver, Java, TestNG, Cucumber (BDD), Maven, Page Object Model (POM), Page Factory, Data-Driven Framework, Hybrid Framework

API Testing: Postman, REST API Testing, REST Assured, HTTP Methods, Status Code Validation, JSON Request and Response Validation

Database Testing: MySQL, SQL Queries, CRUD Operations, Database Validation, Data Integrity Testing

CI/CD and Version Control: Jenkins, Maven, Git, GitHub

Tools: JIRA, Zephyr, BrowserStack, Eclipse, Postman

Methodologies: Agile/Scrum, SDLC, STLC, Defect Life Cycle

Domain: Banking, Card Payment Processing, FinTech, PCI DSS-aligned validations

PROFESSIONAL EXPERIENCE

Software Test Engineer | ZAK India Technologies (Client: Wipro – Moniepoint) | Mar 2023 – Present

- Perform end-to-end Manual and Automation Testing of a banking Card Payment Processing System covering Debit, Credit, Prepaid and Virtual Cards.
- Validate payment workflows including OTP, CVV, tokenization and transaction processing, contributing to a 30% reduction in defects.
- Designed and executed 200+ test cases using test case design techniques, improving test coverage by 40%.
- Developed and maintained 100+ automation scripts using Selenium WebDriver, Java, TestNG, POM and Page Factory, reducing manual testing effort by 50%.
- Built and enhanced the Selenium automation framework using Maven, with Data-Driven and Hybrid approaches and Cucumber BDD.
- Performed API Testing using Postman and REST Assured to validate payment gateway integrations, HTTP methods, status codes and JSON responses.
- Performed Database Testing using MySQL queries to validate transaction data, CRUD operations and data integrity.
- Integrated automation suites with Maven, Git/GitHub and Jenkins CI/CD pipelines for continuous test execution.
- Conducted Functional, Integration, Regression, Smoke, Sanity and Cross-Browser Testing on web and mobile applications to support release validation.
- Logged, tracked and managed defects in JIRA and managed test cases in Zephyr; collaborated with developers and business teams in Agile/Scrum ceremonies.

PROJECT EXPERIENCE

Card Payment Processing System | Web Application | Banking / FinTech

- Designed and executed end-to-end test scenarios for the payment lifecycle: Validation → OTP → Transaction → Refund.
- Automated critical flows such as payment authorization and refund processing using Selenium WebDriver, Java and TestNG.
- Validated API status codes, JSON responses, authentication and request/response data using Postman and REST Assured.
- Executed MySQL queries to validate transaction logs, settlements and refund data.

- Identified and reported critical defects (OTP failures, transaction issues, refund mismatches) in JIRA.
- Performed security validations for secure payment processing against PCI DSS requirements.

EDUCATION

Master of Computer Applications (MCA) | Little Flowers College, Mumbai | 2025

Bachelor of Arts (BA) | Dr. Ram Manohar Lohia Avadh University | 2015

CERTIFICATION

Manual & Automation Testing Certification | QEdge Technologies, Hyderabad | Selenium, TestNG, API Testing, Framework Design

ADDITIONAL TECHNICAL SKILLS

AWS (EC2, S3, IAM, VPC, RDS, CloudWatch, CloudTrail), Docker, Kubernetes, Terraform, Ansible, Linux, Shell Scripting

LANGUAGES

[English, Hindi, Urdu – proficiency levels to be confirmed]

Name: Sajid Abbas | **Location:** Hyderabad, India
